and Industry

I am delighted to extend by greatest congratulations to the Singapore International Jewelry expo 2023, held at Marina Bay Sands, Singapore from 13 to 16 July 2023.

The world has begun to reopen to international travels, and I am delighted to note that the jewelry industry seizes this opportunity once-again to physically connect with valued buyers, suppliers, manufacturers and trade peers from ASEAN and beyond.

UMFCCI has a vast network of Chambers and Associations, and represents the private sector business community. I appreciate SIJE's continuous cooperation with UMFCCI.

Myanmar's world renowned rubies, jade and other high quality gemstones and jewelry would be showcased through our finest jewelers, and the esteemed industry experts would have an opportunity to explore them during the event.

Recently, Myanmar has opened doors for the gold and jewelry trade, and this new development will greatly benefit our industry stakeholders. Therefore, I encourage all industry peers to grasp this opportunity, by trading and investing in our country, to expand the business portfolio.

There is room for all of us to grow and prosper. We cannot do this alone, and together we can work towards ensuring the industry stays successful in the years to come.

My heartfelt appreciation and congratulations to the organisers of the Singapore International Jewelry Expo, and wish all exhibitors and attendees the best of success.

ABP Concept (Atelier Du Bracelet Parisien) Booth P15, France

Sustainable Alligator Watch Strap

Not all leather skins from breeding farms meet quality standards, resulting in rejected skins that are discarded. These farms raise and kill animals for no purpose. In an effort to reduce their carbon footprint and promote sustainability, alligator skin farmers and tanners initiated a policy ten years ago. The aim is to utilize 100% of the skins, avoiding the sacrifice of lower-quality ones. This approach reduces the carbon impact of breeding farms and tanners, lowers product prices, and ensures a no-waste policy. Atelier du bracelet Parisien proudly collaborates with a renowned tanner, offering a sustainable full alligator strap exclusively in black.

ABP also produces other watch straps that are **durable, vegan and environmentally-friendly**: jute fabric with cork lining, cork and wood

FINE Co Ltd Booth D23, Thailand

We create unique and naturally beautiful jewelry by combining natural gemstones with colorful seashells. These seashells are sourced from discarded white mother-of-pearl shells used in the pearl industry, as well as Abalone shells from high-end restaurants, which are typically only used for cooking. By upcycling these shells into sheets and incorporating them with gemstones, we enhance the durability of the seashell fragments while adding vibrant colors and a distinctive aesthetic to our jewelry.
